

"Engaging Voters in the Summer" - May 2010

Summer is a tricky time to engage voters, but it is a must in this political climate. For many people, November seems far away. For those of us in politics, we realize that it is right around the corner.

Tele Town Halls are a great way for you to contact a large group without making them commit to gathering in one place. They can join in from home, vacation or the ballpark.

Tele Town Hall is more than a speech over the phone. [It can be a survey, a poll or even a fundraiser.](#) As you remind Tele Town Hall participants of the stakes this November, our features allow you to gauge their interest in events, candidates and volunteer efforts.

Tele Town Halls work for you at a price you can afford. With FLS Connect's Tele Town Hall, you'll never be charged a set-up fee and there are no cancellation fees. We'll work side-by-side with you to create the best, most effective Tele Town Hall event.

[Contact us to learn more or to schedule a demo.](#)

Don't get stuck hosting summer meetings with low attendance and little participation. Open up the lines of communication and use Tele Town Hall to give your audience the chance to get involved without having to take a timeout from their summer break schedule.
